

DVDPlayer

The DVD player with more fun and flexibility built-in! Slim, sleek and packed with quality features. This is a video enthusiasts dream.

Compact slim height design (48mm) takes up about half the space of a traditional component

Versatile deck plays DVDs, Video CDs, Music CDs, HDCDs and MP3s on CD-R and CD-RW

Reads JPEG files on CD-R and CD-RW for playback of digital slideshows on your TV

10-bit Video Digital to Analog Converter and 27MHz Advanced Digital Filter for the best quality digital transfer

Dolby Digital® and DTS® Digital outputs for flexibility in Surround Sound applications

Coaxial and Optical Digital Audio outputs provide a high quality audio experience

Component, S-Video and Composite Video outputs provide the highest video quality and complete system flexibility

Supports Multiple Screen Aspect Ratios (16:9, 4:3 Letterbox, 4:3 Pan & Scan)

Multiple Angle Viewing, Zoom, Frame Advance, Smooth Scan High-Speed Search and Smooth Slow Motion

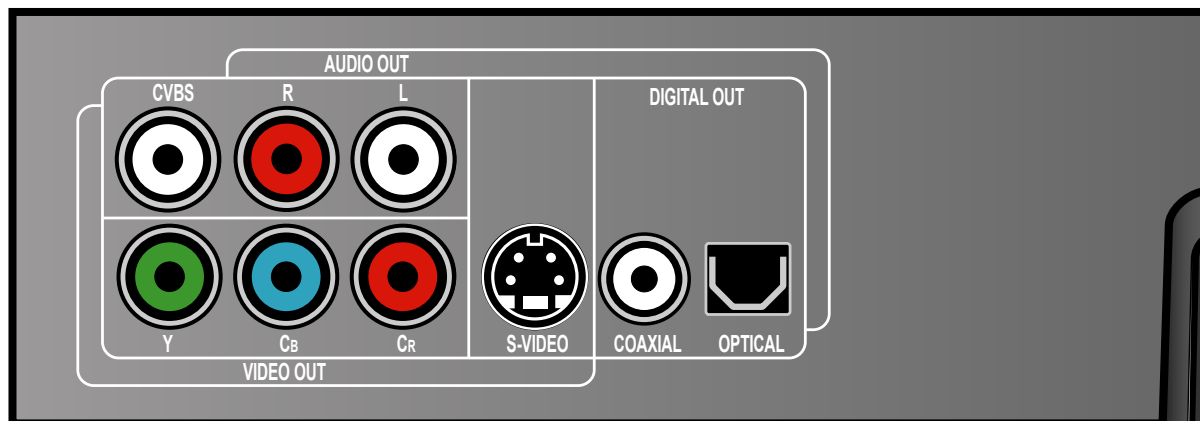

Full display for easy viewing of function status

Upgradable firmware to ensure the unit plays all future DVD/Video formats

Parental Lock with password so parents can control their children's viewing habits

The DVP950 is a mere 48mm high – that's less than 2 inches! But it's not just about its compact size, for inside this sleek component you'll find features that set it apart. The highest quality audio and video processing technology, complete sets of analog and digital audio and video outputs, the ability to play MP3s on CD-R and CD-RW, plus audiophile HDCD playback and pictures on CD too! The DVP950 – looks cool, works great!
